

BASAMUKH SEED **INTEGRATED SERVICES**

Pioneering Excellence in Nigeria's Seed Industry

Samaru Zaria, Kaduna State | Certified High-Yield Seeds

Cultivating Excellence

Basamukh Seed Integrated Services is a premier agricultural enterprise based in Samaru Zaria, Kaduna.

We specialize in the production, processing, and distribution of high-quality seeds that drive agricultural productivity across Africa. Our commitment lies in bridging the gap between potential and performance, ensuring every farmer has access to seeds that resist disease, adapt to local conditions, and deliver maximum yield.

Vision

To lead seed production and agricultural solutions across Africa.

Mission

To provide affordable, high-quality seeds that enhance productivity.

The Quality Journey

From Laboratory Sophistication to Field Success

Step 1: R&D

Genetic purity testing and hybrid selection.

Step 2: Production

Controlled field cultivation under expert supervision.

Step 3: Quality Check

Rigorous certification and germination verification.

Step 4: Delivery

Optimized distribution to the heart of the farm.

Our Seed Portfolio

Maize

High-yield hybrids with superior drought resistance and pest tolerance, specifically adapted for the sub-Saharan climate.

Sorghum

Climate-resilient varieties designed for food security and industrial use, featuring high grain quality and stalks.

Soybean

Rich in protein and oil content, our soybeans are bred for high germination rates and synchronized maturity.

Groundnut

Improved oil-rich varieties with enhanced resistance to aflatoxin and rosette disease.

Reach Out to Us

Partnering for a more productive Africa.
