

BASAMUKH SEED **INTEGRATED SERVICES**

Pioneering Excellence in Nigeria's Seed Industry

Samaru Zaria, Kaduna State | Certified High-Yield Seeds

Cultivating Excellence

With over 15 years of industry experience, Basamukh Seed Integrated Services is a premier agricultural enterprise based in Samaru Zaria, Kaduna.

We specialize in the production, processing, and distribution of high-quality seeds that drive agricultural productivity across Africa. Our commitment lies in bridging the gap between potential and performance, ensuring every farmer has access to seeds that resist disease, adapt to local conditions, and deliver maximum yield.

Our Capacity

- ✓ Deliver large volumes of certified seeds within agreed timelines.
- ✓ Maintain strict quality control and compliance standards.
- ✓ Manage end-to-end seed production, processing, and distribution.

Vision

To lead seed production and agricultural solutions across Nigeria and Africa.

Mission

To produce and supply improved seed varieties that meet industry standards and empower farmers.

The Quality Journey

From Laboratory Sophistication to Field Success

Step 1: R&D

Genetic purity testing and hybrid selection.

Step 2: Production

Controlled field cultivation under expert supervision.

Step 3: Quality Check

Rigorous certification and germination verification.

Step 4: Delivery

Optimized distribution to the heart of the farm.

Past Projects & Contract Execution

A proven track record of delivering high-quality seeds to government programs and international organizations.

State Government

Kaduna & Kebbi ADP

Contracted seed supplier for Agricultural Development Programmes, supporting cluster-based farming with large-scale delivery of certified seeds.

International NGO

Pyxera Global – Rayuwa

Delivered large volumes of certified seeds for the Rayuwa Project in Katsina State, ensuring timely input availability for project beneficiaries.

Community Development

Nuru International

Supplied high-quality seeds for community-based interventions in Adamawa State, contributing to improved farm yields and livelihoods.

State Government**Gombe State Input Programme**

Bulk supply of certified high-quality seeds in compliance with state food security initiatives and seasonal distribution programs.

Our Seed Portfolio

Maize Hybrids

High-yield hybrids including SAMMAZ-50, S-17, and S-52, featuring superior drought resistance and pest tolerance.

Rice & Sorghum

Climate-resilient high-yield rice and sorghum varieties designed for food security and industrial use.

Soybean & Cowpea

Bred for high germination and protein content. Our cowpea includes advanced PBR biotech varieties via AATF.

Groundnut & Sesame

Oil-rich varieties with enhanced resistance to disease, specifically adapted for the sub-Saharan climate.
