

BASAMUKH INTEGRATED SERVICES NIGERIA LIMITED

Agricultural Seed Production & Supply

Company Overview

Basamukh Integrated Services Nigeria Limited is a reputable agricultural seed company dedicated to the production and supply of high-quality seeds to farmers across Nigeria. With over 15 years of experience, the company has built a strong reputation for reliability, quality, and consistency. We specialize in improved seed varieties that enhance crop yield and support sustainable farming practices.

Vision

To be a leading seed production company in Nigeria, providing high-quality seeds that improve agricultural productivity and food security.

Mission

To produce and supply improved seed varieties that meet industry standards, empower farmers, and contribute to agricultural development through innovation and excellence.

Our Products

- 4 Agricultural Development Programs

Production & Operations

Our seed production is carried out annually in line with the farming season to ensure optimal quality and yield. As the rainy season approaches, preparations are underway to commence another production cycle to meet increasing demand.

Future Plans

The company is committed to expanding its production capacity and improving seed varieties to meet the growing needs of farmers across Nigeria.
